

GAME MANUFACTURING AND MORE

PROJECT ROADMAP

Delano offers an end-to-end full service, beginning with understanding your game and your goals. It's by your inspired development and our gaming manufacturing expertise, we'll assist you making your dream come true. You can see our Roadmap to completion below, which guides you through each process along your manufacturing journey. Come adventure with us today!

1 PREPRESS
Our artwork team ensures your files are print-ready.

2 DIGITAL PROOFS
We provide you with digital proofs for your review before production begins.

3 SAMPLES
We are happy to send you samples for review before running high quality prints.

4 PROOFING
Our design team sends you physical proofs for approval prior to any production run.

5 SOURCING
Dice and all other non-printed game components are selected and procured.

6 PRINTING
All digital assets are printed on high quality stock to ensure the best gameplay experience possible.

7 MOUNTING/FINISHING
Prints are precision mounted to production cardstock or cardboard right before the die cutting process.

8 DIE CUTTING
All game components are precision cut to exact specifications.

9 ELEMENTAL PROTECTION
Board game components are cured to prevent damage or warping caused by environmental conditions.

10 MASS PRODUCTION COPY
The most exciting part of the process is being able to see a mass production copy (MPC) of the game when the print run has been finalized.

11 KITTING
All parts, pieces are packed into the box, shrink wrapped, and secured as the final part of the production process. Made ready for retail.

12 FULFILLMENT
We have the capability to fulfill your games out of our warehousing.

SHIPPING
Games are boxed up and shipped to the destination(s) of your choosing.

Our team has decades of combined experience and we've worked with thousands of creatives such as yourself, new start-ups and long standing, well-known companies in the game industry. Our expertise and strong partnerships are what keep the referrals flourishing and long-time relationships coming back to play with us!
